## Issue history:
Version 01 issued: 03-Jul-17
Overview

Travelport Rapid Reprice provides Travel Agency users with an automated process to re-price air tickets when a traveller wishes to make a voluntary change to their flight arrangements either before travel or during travel. The application calculates any additional collection and penalty fees associated with the change, eliminating any time consuming manual calculations required for ticket exchanges. Airline participation is dependent on each airline filing specific Category 31 data via ATPCO / SITA.

Travelport is pleased to announce the addition of Aegean Airlines (A3) to its growing list of airlines participating in Travelport Rapid Reprice and ARNE. Please refer to ASK Travelport answer ID AN6047 for the full current listing.

Customer benefit

The addition of Aegean Airlines (A3) will allow agency users the ability to process more ticket exchanges via an automated process.

Detail and customer examples

No new formats or entries required.
